AN OPEN LETTER FROM RENSSELAER ALUMNI

Members of the Rensselaer Polytechnic Institute Board of Trustees:

Since 1890, the student-run Rensselaer Union has been the heart of our campus community. The unique opportunities it provides have been invaluable to our development as students, professionals, and individuals. We write today as concerned alumni and former student leaders determined to ensure that these opportunities remain available to future generations.

We find no ambiguity in the Union Constitution's support of Rensselaer's rich tradition of independent student governance. Students are explicitly given the right and responsibility to fund and manage activities, facilities, and employees. They are granted the opportunity to be agents of change by collaborating with peers and professionals. Through their independence, students are empowered and inspired to take an active role in the Rensselaer community as stakeholders in our collective future.

An independent Union gives students the irreplaceable opportunity to learn by doing, growing as leaders through their achievements and mistakes. Each generation of student leaders builds on the foundation and the lessons of its predecessors and the institutional knowledge of student-hired administrative staff. This accumulation of wisdom, over many decades of annually-elected leadership allows the Union to grow stronger.

Every change to the Constitution has been passed by the Student Senate, ratified by a vote of the student body, and approved by the Board of Trustees. This democratic process is built on trust and cooperation across the entire Rensselaer community. Unilateral action by any party - students, administrators, or trustees - to amend or alter the Constitution without honoring this process would undermine the integrity of our institution and our community.

We are united in the belief that these traditions of student leadership are fundamental to the success of Rensselaer. We support the current Constitution and the established democratic process. We urge you to reaffirm your commitment to the Union's self-governance, and work with the students to rebuild the trust so essential to the success of our community and our school.

Funded by generations of proud Rensselaer alumni
